Spider Launches SpiderLine™

Seattle – Spider, a division of SafeWorks, LLC, announces the new and improved design for the SpiderLine™ Temporary Horizontal Lifeline System – the safe, reliable and proven fall protection solution for workers on bridges, building construction, roof tops and other elevated surfaces.

Easy to install and engineered to fit multiple applications at height, SpiderLine™ improves workers' safety and productivity while meeting OSHA and CSA fall protection requirements.

With a maximum length of 300 ft, the improved SpiderLine™ design boasts several superior features. Standard pass through stanchions allow the freedom to move without having to unhook the lanyard. The wide clamp option connects to beams up to 36 in. wide with 3 3/8 in. flange thickness. The 12.5° vertical angle allows an open walkway for workers, the low profile chain eliminates trip hazards, and the modular stanchion post makes it more affordable.

“For more than 65 years, our market-leading suspended access offerings have included the safest, most reliable fall protection solutions, from our trusted harnesses to our recently launched temporary, non-penetrating SpiderRail™ guardrail. We're excited to add the new SpiderLine™ to this reputable line-up,” says John Sotiroff, Vice President Sales and Distribution. “We listened to our customers' needs and improved the SpiderLine™ features accordingly. The result is a safe, affordable, code-compliant temporary horizontal lifeline system that workers at height demand and deserve.”

SpiderLine™ is available for purchase from Spider's 25 operation centers in the Americas. To view the product brochure, click http://www.spiderstaging.com/PDF/SpiderLine_Brochure_Final_Web.pdf.

About Spider:

Founded in 1947, Spider, a division of SafeWorks, created the powered suspended access business by introducing the well-known Spider basket. Since then, our product and service offering has expanded greatly to serve the needs of an ever-growing marketplace. Spider is the largest manufacturer and distributor of access and safety solutions in North America, serving more customers from more locations with a wider variety of products and services than any other company. From baskets, traction hoist and platform rental, to safety and training, to specialty-engineered products - Spider has a strong team of professionals, along with a national network of sales, service and support capabilities to provide you with the most reliable access solutions available
