## Spider to Speak at Operations & Maintenance Summit

Seattle – Spider, a division of SafeWorks, LLC, will be speaking on the topic “Best practice blade repair protection and maintenance” at the Wind Energy Updates’ annual Operations & Maintenance Summit on April 25 – 27 in Dallas.

Spider’s Director of Wind Access, Clint Ramberg, joins an interactive panel session to discuss how innovative suspended access platforms are able to solve the common wind access challenges and provide a simple, practical, safe and cost-effective turbine maintenance solution for the wind farm owners.

“This O&M summit is an excellent opportunity to learn about pressing issues in maintenance of wind turbines,” says Ramberg. “Leveraging our 65 years of experience in putting people to work at height safely and profitably and our extensive work on wind turbines with contractors and O&M professionals, Spider understands the best blade and tower access solutions that are proven, reliable and cost-effective to improve safety and productivity.”

### About Spider:

Founded in 1947, Spider, a division of SafeWorks, created the powered suspended access business by introducing the well-known Spider basket. Since then, our product and service offering has expanded greatly to serve the needs of an ever-growing marketplace. Spider is the largest manufacturer and distributor of access and safety solutions in North America, serving more customers from more locations with a wider variety of products and services than any other company. From baskets, traction hoist and platform rental, to safety and training, to specialty-engineered products - Spider has a strong team of professionals, along with a national network of sales, service and support capabilities to provide you with the most reliable access solutions available.
