

SpiderLine™ Fall Protection at the Arcelor Mittal Steel Mill – Burns Harbor, IN

Contractor: Morrison

Project Scope: The customer was faced with potential fall hazards while cleaning the Arcelor Mittal steel mill's roof gutters.

Challenges:

- 100% fall protection with a high anchor point and no pendulum effect was required.
- Due to the large size of the facility, a system that could be relocated to different areas was necessary to minimize cost.
- The location of the steel mill was remote.
- The customer required a quick turnaround.

Solutions: Spider sold 900 ft of SpiderLine™ temporary horizontal lifeline system to Morrison to provide complete fall protection for their leading edge work at the steel mill. The system was equipped with a custom engineered weld-on bracket that provided 100% fall protection with a high anchor point and no pendulum effect. Because the SpiderLine™ system is temporary, it could be easily relocated to different areas of this large facility as needed, making it a cost-effective solution.

With 25 locations in the Americas, Spider's operation centers are able to provide local support, even to rather remote locations like this mill in Indiana. Spider's Chicago team and elite team of engineers collaborated to engineer, fabricate and deliver this customized solution in just a few days.

About Spider:

Founded in 1947, Spider, a division of SafeWorks, created the powered suspended access business by introducing the well-known Spider basket. Since then, our product and service offering has expanded greatly to serve the needs of an ever-growing marketplace. Spider is the largest manufacturer and distributor of access and safety solutions in North America, serving more customers from more locations with a wider variety of products and services than any other company. From baskets, traction hoist and platform rental, to safety and training, to specialty-engineered products - Spider has a strong team of professionals, along with a national network of sales, service and support capabilities to provide you with the most reliable access solutions available.
