

## Spider SafeCar 800 False Car

Spider's innovative false car offers easy installation, high travel speeds and jobsite versatility to maximize productivity during elevator installation projects.

Fully integrated suspended access manufacturing and engineering

Highly specialized design and support expertise

Custom engineered solutions that benefit from complex local safety code expertise

ISO 9001:2008 Certified Quality Systems

Operational excellence to drive reliability and consistency across the Americas

24/7 technical support

SPIDER SAFECAR 800

Global presence with 25 rental and sales locations in the Americas

With seven decades of knowledge and experience in putting people to work at height safely and productively, Spider offers a complete line of elevator access solutions, including the SafeCar 800 False Car.

- Adjustable to fit in hoistways with distance between guide rails (DBGs) from 5 ft 5 in. to 9 ft, and rail face sizes of 5/8 in., 3/4 in., 1 1/8 in. and 1 1/4 in.
- Live load capacity of up to 800 lbs (363 kg)
- Improved productivity with high lifting speeds up to 70 fpm when used with Spider's GHS Guided High Speed traction hoists.
- Reduced assembly and installation time with minimal parts and modular construction
- Increased strength and durability from rectangular aluminum tubes
- Improved product life due to Ultra High Molecular Weight (UHMW) polyethylene wear pads that eliminate metal-to-metal contact found on competitive models
- Maximized uptime with rapid delivery, service and repair from 25 branches in the Americas
