

Spider Knockdown Mod

Spider Knockdown is a versatile, flexible, and cost-effective modular knockdown suspended platform that provides a safe, secure and stable access solution for a variety of construction, maintenance, restoration, painting and inspection projects. Spider knockdown meets or exceeds industry standards and can be easily interchangeable with other leading products and accessories on the market.

Spider Knockdown

Service available worldwide through 24 Spider operation centers

Spider Knockdown Modular Platform

Safe, Simple, and Stable

High load capacity - up to 2000 lb

Built-in toeboards

Removable and adjustable guardrails allow easier and faster installation

Aluminum extrusion components resist corrosion from harsh environmental usage

One step self-locking pins provide added safety and are easy to use

Meets or exceeds the toughest safety standards

Versatile, Flexible, and Cost-effective

A variety of configurations enables the platform to fit into tight, hard-to-reach working spaces for various access applications

Compact parts are easy to transport and store, saving storage and inventory costs

Quick set-up - one person can easily assemble and disassemble in less than 10 minutes

Light weight makes it easy to load and unload on trucks

24 branches allow faster response time and shorter lead time, and reduce cost to inventory spare parts, lowering the total cost of ownership; Also make project, technical and engineering support available locally 24/7

Spider Knockdown Features

Spider Knockdown Platform with End Stirrups

Total platform length		Platform configuration		Total platform weight		Rated working load		Maximum # of sections

^a Outer 3-meter sections include 3 3 cantilevered sections.

^b Outer 7 sections include cantilevered sections of between 3 and 7.

^c Outer 10 sections include 7 cantilevered sections.

^d Outer 3-meter sections include 1-meter cantilevered sections.

^e Outer 3-meter sections include cantilevered sections of between 1 and 2 meters.

^f Outer 3-meter sections include 2-meter cantilevered sections.

Note: The tables above assume that 2 powered hoists will be used. Total platform weight does NOT include weight of hoists, material, or workers. Rated working load must be evenly distributed on platform. For information about configurations not listed here, please consult your Spider dealer.

Spider Knockdown - One Solution; Multiple Applications

The safe, stable and simple modular design of the Spider Knockdown platform offers ideal suspended scaffold access, providing a practical and trusted solution for safely maintaining virtually any type of structure.

Whether a longtime customer or new to Spider, we strive to make you more productive in ways you value:

- Increased uptime
- Better productivity
- Lower total cost of ownership
- Safer operation for your employees

Spider is the largest manufacturer and distributor of access and fall protection solutions in North America, serving more customers with a wider variety of products and services than any other company.
