

■ Connecting Devices

The critical link which joins body wear to the anchorage/anchorage connector

BD-00005

Spider Lanyards

Every personal fall arrest system requires a high-quality lanyard as a critical link between the anchorage and the harness. To ensure worker safety, Spider lanyards are manufactured with the highest-quality components available.

- Heavy-duty webbing with tamper-resistant locking snap hooks
- Quality workmanship
- Comfortable design that enhances maneuverability

Restricted access spring design on a Spider snap hook minimizes the potential for damage or tampering.

Spider Rope Grabs

For towers, swing stages, scaffolding, steel erecting, and roofing

Spider Rope Grabs move easily up and down vertical lifelines to provide continuous fall protection. Trailing models offer complete hands-free operation for increased productivity.

In the event of a fall, Spider Rope Grabs lock instantly.

- Solid, corrosion-resistant stainless steel
- Large attachment ring helps prevent rollout
- Optional uni-body construction
