Elevator Solutions

Did you know Spider is a global leader in elevator installation access tools and accessories, leveraging 70 years of product innovation, productivity and safety based on VOC from field-level users? Spider offers differentiated rental of solutions through its unmatched branch network throughout the Americas, including:

UpPro Traction Hoists

Spider's newest traction hoist family, UpPro, maximizes productivity with capacities from 2,200 to 5,500 lbs and speeds up to 60 feet per minute. From the UpPro P2514 GHS, the highest capacity man-rated hoist in the industry, to the UpPro P1009 GHS, there is an UpPro model for every elevator application.

SafeCar 800 False Car

Spider's innovative false car offers easy installation, high travel speeds and jobsite versatility to maximize productivity during elevator installation projects. Customizable to fit in various hoistways, with minimal parts and modular construction for reduced assembly and installation time, and increased strength and durability from rectangular aluminum tubes and Ultra High Molecular Weight (UHMW) polyethylene wear pads, this is the false car of choice.

SC1500-GHS Traction Hoist

Spider's SC1500-GHS is a UL-listed, man riding, high speed traction hoist that significantly increases your productivity and safety on Guided High Speed (GHS) applications with speeds up to 70 fpm. With the best low voltage performance in its class, continuous readouts from the on-board voltage meter and easy operation with remote pendant controls, this hoist delivers performance and reliability you've come to expect from Spider's SC1500 series.

ProCut Belt Cutter

Cut elevator belts cleanly and efficiently in just five seconds with Spider's ProCut Belt Cutter. Featuring durable, robust metal components with a hardened blade and shear blocks, ProCut is easy to operate and compatible with any standard 300 ft-lb impact driver.

Curtain Wall Solutions

For seven decades, Spider has been providing reliable access solutions, including swingstages and Beta Max material hoists, to glazing contractors for their most demanding curtain wall installation and maintenance projects. We are excited to introduce our latest, innovative lifting solutions designed specifically for curtain wall applications:

Spider Glazier 2200

The Spider Glazier 2200 simultaneously delivers mobility, swift speeds, high lifting capacity of up to 2,000 lbs and precise curtain wall positioning to your jobsite along with optimal safety and code compliance.

Spider Dual Monorail System

Precisely position curtain wall units horizontally and vertically with Spider's Dual Monorail System - a complete solution providing continuous, horizontal mobility for swingstages and material hoists around a structure's perimeter.

The innovation continues with new offerings in Spider's temporary and permanent access product lines:

Spider Single Tieback Anchor

The Single Tieback Anchor provides a safe, economical fall protection anchorage for workers operating permanently installed powered suspended scaffolds. With a 5,000-lb ultimate load rating, 12 in. or 20 in. height options, and bolt-down or welded base plate options, the Spider Single Tieback Anchor is a cost-effective alternative to competitive tieback solutions.

Spider Knockdown Mod

The Spider Knockdown Mod is a versatile, flexible and cost-effective modular knockdown suspended platform that provides a safe, secure and stable access solution for a variety of construction, maintenance, restoration, painting and inspection projects. Lightweight and easy to transport, store and assemble, Spider Knockdown Mod is easily interchangeable with other leading products and accessories on the market.
