Spider Introduces Spider Systems Group

Seattle — Spider, a division of SafeWorks, LLC, introduces Spider Systems Group, the dedicated team of experts designed to provide access and fall protection solutions for the most complicated, mission-critical projects.

The Systems Group works in concert with the extensive Spider branch network to meet the unique needs and challenges of large industrial and commercial project work. It is resourced to deliver the response time, site support, project management, safety code expertise and innovative solutions that the most critical energy, infrastructure and landmark project teams demand.

“The veterans that comprise the Systems Group are some of Spider’s finest – dedicated, knowledgeable, innovative experts who have a track record of successfully managing the most demanding access challenges from start to finish,” comments John Sotiroff, Vice President Spider Sales and Distribution. “With over 65 years of industry knowledge along with the combined experience of these veterans, the Spider Systems Group is the partner to trust when the work is on the critical path.”

About Spider:

Founded in 1947, Spider, a division of SafeWorks, created the powered suspended access business by introducing the well-known Spider basket. Since then, our product and service offering has expanded greatly to serve the needs of an ever-growing marketplace. Spider is the largest manufacturer and distributor of access and safety solutions in North America, serving more customers from more locations with a wider variety of products and services than any other company. From baskets, traction hoist and platform rental, to safety and training, to specialty-engineered products - Spider has a strong team of professionals, along with a national network of sales, service and support capabilities to provide you with the most reliable access solutions available.
