PURPOSE
It has been reported in the field that the Quick pin can fail in such a way as to become stuck in the Mod connection. The failure is the internal compression spring slips past locking lever causing the locking lever to jam in the locked position.

COMPLIANCE CATEGORY	PRIORITY CODE
☐ Safety Failure to comply with this product update could result in personal injury. Compliance is mandated within a specific operating time.	☐ 1 Prior to unit startup or prior to continued operation (Immediate Action Required)
☐ Compliance Required Identifies the need for action to correct a condition that, if left uncorrected, may result in reduced equipment reliability or efficiency. Compliance may be required within a specific operating time.	☐ 2 At first opportunity (Prior to Next Scheduled Maintenance Interval)
☒ Optional Identifies changes that may be beneficial to some, but not necessarily all. Accomplishment at customers discretion.	☐ 3 Next Scheduled Maintenance Interval
☐ Notification Customer communication, no action required.	☒ 4 Optional / Notification
