

SpiderLine™

Temporary Horizontal Lifeline

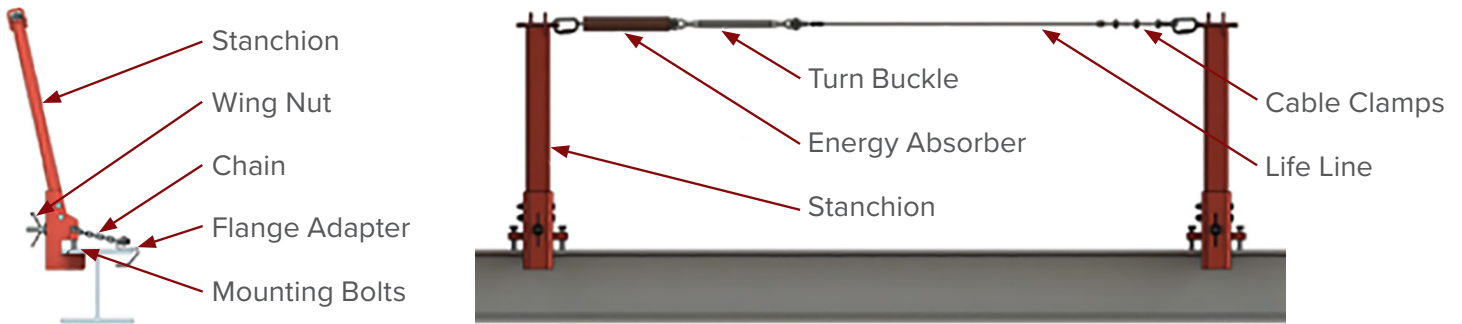

SpiderLine™ is a safe, reliable and proven fall protection solution for ironworkers and those navigating bridges, construction sites, roof tops and other elevated surfaces.

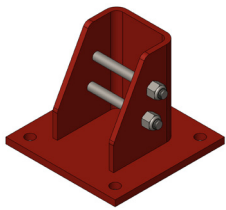

- › Easy to install
- › Various base options for optimized jobsite flexibility
- › Improved energy absorber shear pin prevents over-tensioning and improves tension indication, minimizing the frequency of part replacement.
- › Standard modular stanchion post makes it more affordable than competitors' systems.
- › Trip hazards are eliminated with the low-profile chain and the 12.5-degree vertical angle, which creates an open walkway.
- › Wide clamp option accommodates beams up to 36 in. (914 mm) wide with flanges up to 3 3/8 in. (86 mm) thick.
- › Meets CFR 29 OSHA 1926 Subpart M and CSA Z259.13-04 requirements
- › Maximized uptime with unmatched support from the industry's largest branch network

SpiderLine™ Specifications

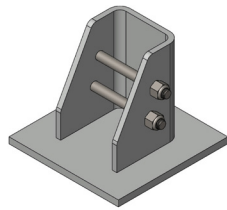

› Typical system with I-beam chain clamp base

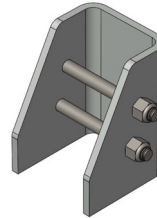

› Various base options for optimal flexibility

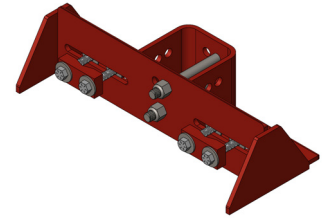

Bolt Down

Weld Down Flange

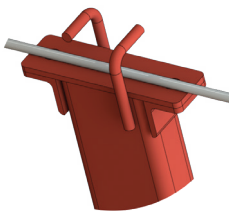

Weld Down No Flange

Concrete Rebar Clamp

› Pass-through feature eliminates the need to frequently unhook the lanyard.

Max length

- › 300 ft. (91.4 m)

Span between stanchions

- › Max: 60 ft. (18.3 m)
- › Min: 20 ft. (6.1 m)

Max persons

- › Per span: 2
- › Per installation: 6

Wire rope

- › 5/16 in. (7.9 mm) 5x26 WS

Since 1947, Spider has led the suspended powered access industry with innovative solutions to commercial construction, elevator, infrastructure, power generation, offshore and wind energy markets throughout the Americas. With highly specialized design expertise, fully integrated manufacturing and engineering, ISO 9001:2015 certification, and a national network of sales, service and 24/7 technical support capabilities, Spider provides the most reliable, turnkey access solutions inspired by customer input.
